19. WHEREAS (i) at a meeting of the Board of Directors of the Company held on 13 April 2017, the Directors resolved to obtain authority to buy back Ordinary 'B' shares in the Company having a nominal value of €0.003 each; and

Information about proposals related to Agenda items

Agenda item 10 (Resolution c)

The Nomination Committee appointed by the Directors of the Company pursuant to Article 90 of the Articles, proposes that the aggregate amount per annum of the ordinary remuneration of Directors shall not exceed €339,000.

The Directors have determined in terms of Articles 68 and 69 of the Articles that the annual amount of the ordinary remuneration of a Director shall be €50,000 and of the Chairman of the Board shall be €100,000. The annual extra remuneration payable to each member of the Audit Committee and the Remuneration Committee shall be €6,500.

The levels of ordinary remuneration have been effective since 2018, and the Directors propose the level of said remuneration to each director remains unchanged in 2020.

Additionally, the directors have determined that an extra remuneration of €1,000 is payable to each director per licence application handled in the US, and a fee, at the rate of €2,000 per day spent in the US in conjunction with handling of the applications, is paid to any director as required.

Agenda item 17 (Resolution j)

The Board proposes the establishment of an executive share option plan (Share Option Plan 2020). This will provide continuing share incentives for managers and senior staff of the Company (both existing and yet-to-be recruited). The scheme should provide an ongoing retention/reward horizon for participants after June 2020.

The intention of the Share Option Plan 2020 is that the awards will be given to approximately 50 key members of staff, with the focus on providing a balanced overall remuneration package.

The options will have a 3-year vesting period. Up to 5% of issued share capital will be available for the new share option plan over a period of 5 years, with a maximum of 1.5% per calendar year.

Awards will be subject to performance conditions and will require that pre-determined levels of financial performance (based on key financial targets, including EBIT, as set by the Board) are achieved before the share options can be exercised. The options will only be exercisable if the financial targets set by the Board are achieved during the 3-year vesting period. Performance against the relevant EBIT targets will be disclosed in each Annual Report following the relevant vesting period.

This document is important and requires your immediate attention. If you are in any doubt about the action you should take, you should consult an appropriate independent financial adviser.

It is proposed that the options are issued with an exercise price range between 10% - 25% above the average share price in the 10 working days prior to the issue of the options. This range will be determined by the Board prior to each grant at its discretion based upon relevant factors.

For the purposes of Article 88(7) of the Companies Act, through this resolution the members of the Company are also authorising the Board of Directors to restrict or withdraw the members' right of pre-emption that would normally entitle members to be offered the options in proportion to their shareholding in the Company before such options can be offered to third parties.

Agenda item 18 (Resolution k)

The objectives of the authorisation are to increase the financial flexibility of the Company and to enable the Company to use its own financial instruments for payment in kind or through a directed set-off to a selling partner in connection with any business acquisitions the Company may undertake or to settle any deferred payments in connection with business acquisitions. The market value of the shares on each issue date will be used in determining the price at which shares will be issued. For the purposes of Article 88(7) of the Companies Act, through this resolution the members of the Company are also authorising the Board of Directors to restrict or withdraw the members' right of pre-emption that would normally entitle members to be offered the newly issued shares in the Company in proportion to their shareholding before such new shares are offered to third parties.

Agenda item 19 (Resolution l)

The Board of Directors proposes that the acquisition by the Company of its own shares shall take place on First North Growth Market at Nasdaq Stockholm or via an offer to acquire the shares to all members of the Company. Such acquisitions of own shares may take place on multiple occasions and will be based on market terms, prevailing regulations and the capital situation at any given time. Notification of any purchase will be made to First North Growth Market at Nasdaq Stockholm and details will appear in the Company's annual report and accounts. Any resolution to repurchase own shares will be publicly disclosed. The objective of the buyback and transfer right is to ensure added value for the Company's shareholders and to give the Board increased flexibility with the Company's capital structure.

Following such buybacks, the intention of the Board would be to either cancel, use as consideration for an acquisition or transfer to employees under a Share Option Plan. Once repurchased, further shareholder and Bondholder approval would be required before those shares could be cancelled.

If used as consideration for an acquisition the intention would be that they would be issued as shares and not sold first.
