

Malta, 9 January 2018

**Kambi Group plc: Trading update for the period 1 October – 31 December 2017**

During Q4, Kambi benefitted from an unusually high number of favourable sporting results, which generated a trading margin of 9.7%. This is significantly higher than the expected average long-term trading margin of 6.5 – 7.0%, which consequently placed some pressure on operator turnover growth.

As a result of these factors, Kambi's revenue for the fourth quarter is expected to be in the range of €18.8 - €19.2 million.

The trading margin can fluctuate from quarter to quarter and therefore we do not see any reason to adjust our projections of the average long-term trading margin.

The full fourth quarter result for 2017 will be published on Wednesday, 14 February 2018 at 07:45 CET, followed by an audiocast at 10:45 CET.
